

"MUST

WE

STARVE

OUR

CHILDREN

TO

PAY

OUR

DEBTS?"

WHY ARE **Profits** MORE  IMPORTANT THAN CHILDREN'S LIVES?

19,000 children could be saved every day if the debt of the world's poorest countries was cancelled and savings put to good use.

THE LOANS HAVE ALREADY BEEN **Paid Back** 

Nigeria borrowed **\$5** billion,
paid back **\$16** billion
and before debt cancellation
still owed **\$32** billion

THIS IS **Easy** 

After debt relief allowed the elimination of school fees in Tanzania, **1.5** million children returned to school almost overnight.
